

MTU List of Abbreviations

for

Marine Automation Application

List of Abbreviations

ABS	American Board of Shipping
AC	Alternating Current
ADEC	Advanced Diesel Engine Control (MTU)
AIN	Analogue Instrument
AOI	Acoustical and Optical Indicator
ASD	Azimuth Stern Drive
BDCS	Battle Damage Control System
BHP	Brake Horse Power
BS	British Standard
BV	Bureau Veritas
Callosum	MTU Ship Automation System
Callosum_MC	Monitoring and Control System – Integrated Monitoring and Control System
Callosum_DC	Damage Control System / Battle Damage Control System in addition to Callosum_MC
Callosum_TS	Crew Training – Onboard and Land-based Training System in addition to Callosum_MC
Callosum_MT	Operational Maintenance Support System in addition to Callosum_MC
CAN	Controller Area Network
CB	Connection Box (MTU)
COB	Cursor Operating Device
CODAD	Combined Diesel and Diesel
CODELAG	Combined Diesel Electric and Gasturbine
CODAG	Combined Diesel and Gasturbine
CODOG	Combined Diesel or Gasturbine
CODAE	Combined Diesel and Electric
CODOE	Combined Diesel or Electric
CE	Conformité Européenne
CP	Control Panel (MTU)
CP	Controllable Propeller
FPP	Fixed Pitch Propeller
CPS	Communication Process Station (MTU)
CRT	Cathode Ray Tube (Colour Monitor)
DC	Direct Current
DEG	Degrees
DGPS	Differential Global Positioning System.
DGU	Diesel Generator Unit
DIN	German National Standards Institute.
DIS	Display Unit (MTU)
DM	Direct Manual Control
DNV	Det Norske Veritas
DP	Dynamic Positioning
DWT	Deadweight Tonnes
EAS	Engineer Alarm Station
ECI	Engine Control Interface
ECS	Engine Control System
ECS-GT	Eng. Contr. Syst. f. Gas Turbines
ECS-UNI	Engine Control System (MTU)
ECU	Engine Control Unit (MTU)
EDT	Electronic Data Transfer
EMC	Electromagnetic Compatibility
EMU	Engine Monitoring Unit (MTU)
EMS	Emergency Schedule
EPMS	Electric Power Management System (MTU)
EPROM	Elec. Erasable Read Only Memory
ER	Engine Room
FAL	Field Automation Level (MTU)
FAT	Factory Acceptance Test
FCU	Flap Control Unit (MTU) - for Exhaust Flaps)
FiFi	Firefighting (Classific. Term)
FMEA	Failure Mode and Effect. Analysis
