

MTU Callosum_MC

Closed Circuit Television System (CCTV)

Page 1/2

The MTU Callosum_MC CCTV is an optional system and functions in conjunction with MTU Callosum_MC. The use of CCTV facilitates centralised monitoring from one or several MTU Callosum_MC operator stations, providing complete view of all critical areas.

Benefits

CCTV fully integrated into MTU Callosum_MC Automation System

Professional camera stations for wide range application

Video-recording and streaming capability

Project specification adaption

Simple and intuitive operation

Design adaptive to different environments

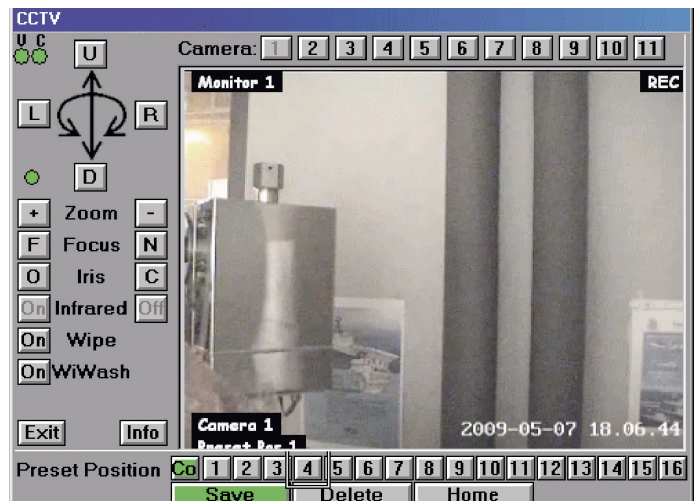

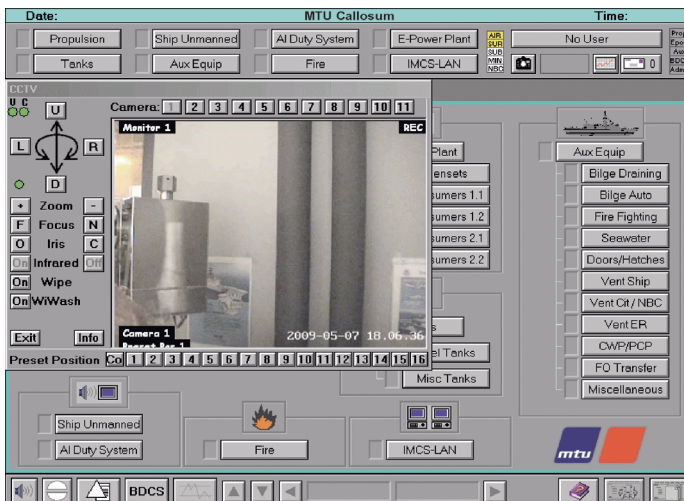

Explosion-/
weatherproof
camera

Dome
camera
