

This diagram illustrates the exploded view of a 1000W generator set, showing the internal components and their assembly relationships. The main components and their part numbers are as follows:

- 14.042**: A cylindrical component, likely a filter or part of the cooling system, located at the top left.
- 09.096**: A large, square, box-like component, possibly a control panel or a protective enclosure, located on the left side.
- 09.002**: A large, circular, disc-like component, likely a flywheel or a part of the generator's internal assembly, located in the center.
- 09.474**: A small, rectangular component, possibly a sensor or a control unit, located on the right side.
- 09.473**: A small, rectangular component, possibly a sensor or a control unit, located on the right side.
- 01.006**: A small, rectangular component, possibly a sensor or a control unit, located on the right side.
- 01.003**: A small, rectangular component, possibly a sensor or a control unit, located on the right side.
- 23.017**: A small, rectangular component, possibly a sensor or a control unit, located on the right side.
- 23.029**: A small, rectangular component, possibly a sensor or a control unit, located on the right side.
- 23.096**: A small, rectangular component, possibly a sensor or a control unit, located on the right side.
- 23.016**: A small, rectangular component, possibly a sensor or a control unit, located on the right side.
