PREFACE

This tool catalog comprises tools and devices required to carry out maintenance and assembly work. The safety instructions in the relevant operating and maintenance manuals must be observed.

Tool catalog structure

The content is subdivided into the following categories:

- general tools
- qualification level-dependent tools
- workshop equipment
- measuring devices

Within these categories, the tools are arranged by function groups. An overview over these function groups is provided on the following pages.

The below symbols are used for the combination of several tools:

tool kit

individual tool within a tool kit

tool which must be used in combination with other tools

spare tool with position number from illustration

Note: The illustration of the tools may deviate to a minor extent.
When ordering tools, the following information must be provided:

Engine type		Designation	
Part No.		Engine No.	
Order No.		Tool catalog No.	
Quantity			

To avoid transmission errors, please confirm any orders placed over the telephone in writing.

TOOL GENERAL TOOLS
